

FACT SHEET

READING LAMPS

ARL-FLEX Two (driver and passenger side) LED reading lamps with flexible arms, mounted on side-walls

Two flexible reading lamps

Two flexible and modern designed reading lamps for the driver and passenger. They are fitted on the cab's sidewalls and can be used when sitting in the seat or lying down in the upper bunk.

The lamps use an energy-saving light-emitting diode and provide a concentrated beam of light, easy to reposition thanks to the flexible arm.

DRIVER APPEAL

- Concentrated light beam that delivers additional light where it is needed.
- Easy to adjust using the flexible arm for comfortable reading.
