

FACT SHEET

WINDOW IN BACK OF CAB

AWIND-RF Fixed window in back of cab (without curtains)

Fixed window in back of cab

The rear window results in a better view over the load area. The window comes in the same colour as the windscreen and the door windows – either tinted or heat-reflecting glass.

The rear window dimensions for FL are: 850x435 mm and for FE: 1050x435 mm.

SAFETY

- Provides better direct rear visibility and control over the load area.
