EXTRA CAB FRONT FOOTSTEP

CF-AFS Retractable extra footstep in the cab front bumper

CF-AFS on a Volvo FMX

Retractable extra footstep in the cab front bumper

For trucks with high ground clearance, there is the option to specify an additional fold-down footstep in the cab's front bumper.

This variant simplifies and enhances the safety of accessing the standard upper footstep. It, in turn, facilitates tasks such as cleaning the windscreen, removing ice from the glass, or replacing windscreen wiper blades.

The footstep offers remarkable anti-slip properties.

Note! This variant is only compatible with BUMP-HD.

DRIVER APPEAL

- Enables easier cleaning of the windscreen.

SAFETY

- Anti-slip properties increases safety.
