

FACT SHEET

FUEL & ENVIRONMENT

**Fuel & Environment - A Fuel & Energy Efficiency service in Volvo Connect**

Volvo Connect is one single interface for your fleet and business where you can manage vehicles, trailers and all other assets of importance.

Control customised reports

The service offers the Fuel Efficiency Report as a quick and powerful tool to identify areas of improvement. Drill down to the details with hundreds of parameters in customized reports.

The report tools for gas and diesel consumption gives a clear overview of fuel consumption, driving distance, emission levels and much more for vehicles and drivers.

**ENERGY EFFICIENCY**

- Improve and maintain the driver fuel efficiency by Driver Coaching*, providing the possibility to customise reports with more than 100 parameters such as PTO, brake usage, coasting, gearbox usage, emissions, topography and more.
- Follow up on the driver and fleet performance from any smart device.

**PRODUCTIVITY**

- Optimise the utilisation of your fleet.

**ENVIRONMENT**

- Monitor the environmental footprint.

* Available only for Volvo FH, FM and FMX. INFOHIGH is required.

FACT SHEET

FUEL & ENVIRONMENT

Increase control of the details

The Fuel & Environment service can customise reports that cover more than 100 parameters, such as diesel or gas consumption, brake usage, emissions and topography. It also allows the monitoring of CO₂, NO_x, particulate matter, CO and HC for a comprehensive view of the environmental footprint.

There is the possibility to sign up for e-mail subscriptions of customised reports to conveniently follow up on a regular basis.

Export reports to PDF or Excel for further analysis. Automated data transfer to third-party services is facilitated by Volvo Connect Developer Portal.

Also, the fleet manager can be alerted of significant fuel level changes, which may indicate the theft of fuel.

Driver Coaching

Driver Coaching* guides the driver to an improved driving technique through the real-time updated Fuel Efficiency Score while driving. Pop up tips on the screen enable the driver to identify areas where an adjustment to the driving technique will improve fuel efficiency.

* Available only for Volvo FH, Volvo FM and Volvo FMX. INFOHIGH is required.

Driver Coaching in the side display.

Fuel Efficiency Score

Fuel Efficiency Score is rated 0–100 and displays the truck and driver performance from a fuel efficiency perspective in four key areas:

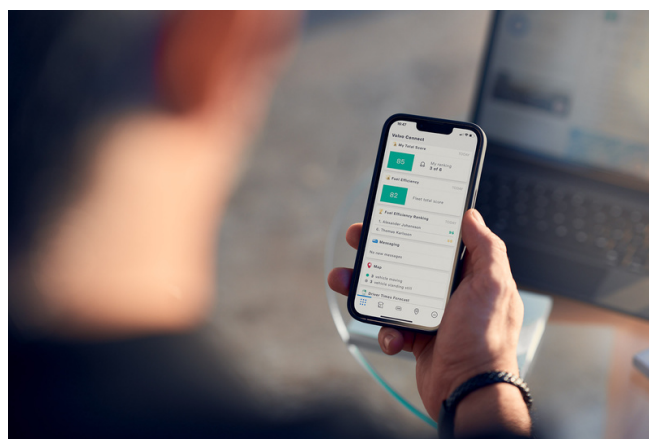

- Engine and gear utilisation
- Speed adaptation
- Anticipation and braking
- Standstill

The unique properties of the Fuel Efficiency Score enable an

immediate comparison between, for example, long haul and distribution applications.

Fuel Efficiency Report and the Volvo Connect app

The Fuel Efficiency Report is an interactive tool for analysing the complete fleet, individual vehicles or drivers. The report overview gives instant feedback on the areas of improvement. Each vehicle and driver are ranked based on their score. To follow up results over time, the trend report combines the Fuel Efficiency Score with fuel consumption for up to 13 months.

The Fuel Efficiency Score and rank on a smart device for quick and powerful follow-up of driver performance.
