FL 4X4 OFF-ROAD ADAPTATION

FL44SING FL 4x4 off-road, single tyres 365/85

Front and rear single tyres 365/85R20 with steel bumper

FL44SING is an adaption for the FL 4x4 rigid.

Single-mounted tyres in combination with a sturdy front steel bumper give excellent traction and superior ground clearance. The steel bumper is a three-piece unit for optimal maintainability.

With a possibility for winch preparations, you can be assured of access to the most demanding remote off-road locations, regardless if you are alone or in operation with a crew. This solution will not be equipped with LED headlights. This will remain with halogen solution.

PRODUCTIVITY

- Better off-road traction in wet and muddy conditions.
- Enhanced off-road capability.
- Increased ground clearance.
- Whole vehicle type approved (WVTA).

SAFETY

- The FL44SING offer is developed, designed and built in the Volvo factory, which means high quality and safety.

FACT SHEET
