

FACT SHEET

FREE SPACE ON FRAME SIDE

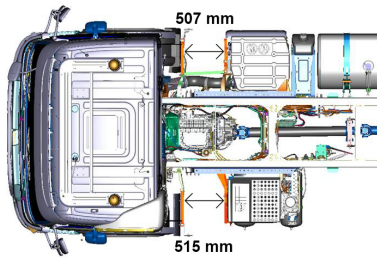

FRFS-BS Frame rail free space on both sides to give space for crane legs or other equipment

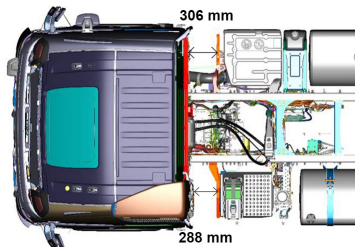

Frame space on frame side

A chassis can be offered with alternative packaging to provide space for crane legs or other equipment.

The FRFS-BS variant offers a frame rail with free space on both sides.

Free Frame Space with one front axle and day cab.

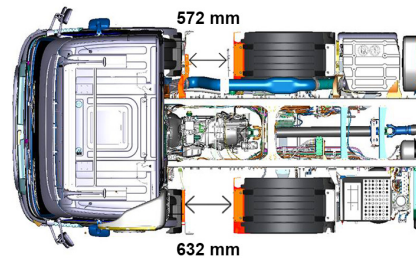

Free Frame Space with one front axle and all sleeper cabs.

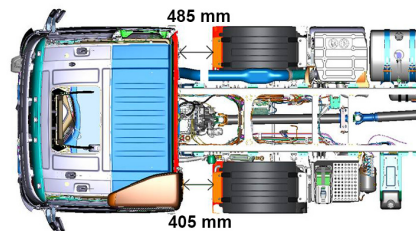

PRODUCTIVITY

- Higher productivity, suitable for more transport applications.
- Flexible body building opportunities.
- Improved quality and reduced lead time since components do not need to be moved afterwards.

Free Frame Space with two front axles and day cab.

Free Frame Space with two front axles and all sleeper cabs.
