

FACT SHEET

STORAGE IN FRONT UPPER CAB

FUS-MED Storage with net in front upper cab

Front overhead storage with net

Above the windscreen there is a combination storage unit featuring four DIN slots at the driver side and two spacious storage lockers, with safety nets across the opening, at the passenger side.

Safety nets across the opening, at the passenger side. In the storage compartments, there is space for freight documents, maps and personal belongings. The DIN slots can be equipped with tachograph, CD changer and CB radio, for example. There is also space here for an auxiliary switch panel.

DRIVER APPEAL

- Easily accessible and spacious compartments makes it easy to keep documents and personal belongings in order.
