

FACT SHEET

MATTRESSES

Spring mattress, premium version

A very comfortable spring mattress for the lower bed. The mattress has a thickness of 160 mm (130 mm FM and FMX) and a core of spiral pocket springs.

It is divided into three zones. The slightly firmer central section provides support for all parts of the body.

The mattress is available in a semifirm and a firm version, and has a folding section.

Foam mattress, premium version

The foam mattress is an alternative to the spring mattress for Volvo FH, with the same comfort level and quality.

This mattress is available on the standard bed and the adjustable beds, but not on the extendable bed.

Overlay mattress protector

An overlay mattress protector provides better sleeping and sitting comfort. It facilitates bed-making and increases the useful life of the spring mattress underneath.

The overlay mattress protector can easily be removed and shaken, which makes it easy to keep the bed clean. It is available in two versions, Basic and Premium.

DRIVER APPEAL

- The driver can adapt the type and firmness of the springs for the maximum sleeping comfort.
- The premium spring mattress has a reinforced central section for a longer useful life.
- The overlay mattress protector improves sleeping comfort and facilitates bed-making.
