

FACT SHEET

## EXTERIOR REMOTE CONTROL

REMC-MF Wireless remote control

### Multi-functional wireless remote control

The multi-functional remote control is wireless and very robust. With a range of up to 25 metres and long battery life (8 h operation, 18 h standby), the remote control is very useful when working around the truck. The radio signal is encrypted to the same high standard as the truck key.

The battery is rechargeable in its charger on the instep handle next to the A-pillar inside the cab. Charge time is 3–4 h.

#### Functions\*

- Level control (air suspension, ECS)
- Load indication
- Electric drive unit control
- Enable and disable extra lighting
- Enable and disable PTOs
- Enable and disable AUX switches
- Enable and disable tail lift or crane
