

# FACT SHEET

## Roof hatch

Sky window with tinted glass.

Roof hatch.

### Roof hatch and sky window

All cabs are equipped with an escape possibility via the roof, either a fixed sky window or a roof hatch. Both the sky window and roof hatch are made of tinted glass.

A sunblind is standard on the sky roof and the roof hatch, on the roof hatch an additional mosquito net is standard.

All trucks are equipped with a hammer, making it easy to smash the sky window or roof hatch in case of an emergency. The hammer is fitted on the driver's seat base.

Both alternatives have an opening dimension of 500×700 mm.

### Sales variants

**ROHO-MAN** Manually operated roof hatch. Possible to open 50 mm at the rear of the hatch.

**ROHO-EL** Electrically operated roof hatch. Possible to open steplessly up to 50 mm. The control switch is located in the upper front shelf.

**UROHO** Sky window/roof emergency exit.
