TOP BUNK

Top bunk folded down (illustrated in a Volvo FH16).

Top bunk folded up (illustrated in a Volvo FH16).

Top bunk

The top bunk is available in a fixed version and a height-adjustable version. To free up space in the cab, the top bunk can be folded up towards the rear wall (to maximum 52°, depending on cab height and upper storage).

The height-adjustable top bunk can be lowered 135 mm, through adjustable (sliding) hinges. The hinges can be locked in two positions - fully raised or fully lowered. A foldable ladder adapted to the two positions is fitted under the bunk.

Sales variants

TBK60AD	Height-adjustable and foldable top bunk, 600×1900 mm.
TBK60F	Fixed and foldable top bunk, 600×1900 mm.
TBK70AD	Height-adjustable and foldable top bunk, 700×1900 mm.
TBK70F	Fixed and foldable top bunk, 700×1900 mm.

DRIVER APPEAL

- The foldable top bunk creates more space in the cab.
- The height-adjustable top bunk gives extended flexibility with regards to the space above the bunks.
- Safety net included.
- Foldable ladder included*.

* See table.
